Daily session recap & outlook · Educational content

Today’s Session Recap

Indian benchmark indices closed higher on Friday, led by strength in IT and banking stocks. The Nifty 50 held firmly above the 24,300 mark, while the Sensex extended its gaining streak. Bank Nifty was the only laggard among the majors, slipping modestly amid profit-booking in select private banks.

Index	Close	Change
NIFTY 50	24,312.45	+0.67%
SENSEX	79,845.12	+0.71%
BANK NIFTY	52,189.30	-0.23%

IT stocks rallied on renewed optimism around US demand recovery, while banking majors saw mixed action ahead of the upcoming policy commentary.

Tomorrow’s Outlook

Markets are likely to track global cues and FII flow trends in the next session. Traders may watch key support near the 24,150 zone on the Nifty, with resistance seen around recent highs. Broader sentiment remains constructive, though volatility could pick up around monthly expiry.
